Terms of Reference for the National Convention Liaison Offices/Officers (NCLOs)

(Note by the Secretariat)

Introduction

The Strategic Convention Action Program (SCAP), adopted by the Conference of the Parties to the Tehran Convention at its second Meeting, Tehran, 10-12 November 2008, called upon the Parties “to appoint one or more focal points within their national administration to coordinate the implementation of the SCAP and other matters related to the implementation of the Convention at the national level, such as the preparation and implementation of Protocols and the contacts and collaboration with donor agencies and other parties”.

In line with this recommendation and following a discussion on the need for organized national level Convention Secretariat support, COP2 decided and all subsequent COPs agreed to include in the Program of Work of the Convention a reference to and support for an operational network of National Convention Liaison Offices/Officers (NCLOs).

NCLOs, engaged at the nomination of their Governments through a contract with the (interim) Secretariat, have since then played an important catalytic and supportive role in mobilizing internal action and support for the implementation of the Convention and the development of its Protocols, as well as informing and advising the Convention (interim) Secretariat on matters of their countries’ concern.

In preparation of COP6 which will be requested to finalize and endorse the arrangements for a regionally established and operating Convention process, the Representatives of the Contracting Parties, meeting at their second Preparatory Committee meeting in Baku, Azerbaijan, 31 May – 3 June 2015, expressed the unanimous wish to continue the network of NCLOs and requested the (interim) Secretariat to prepare and propose terms of reference for administering the network, for consideration and approval by COP6.
